Description

Category: [Software](#)

Omaha Area Heartland of America Software Process Improvement Network. The Omaha SPIN is a group of professionals who share a common interest in quality assurance, software

engineering, and software process improvement. The SPIN is a forum for the free and open exchange of software

process improvement experiences and ideas. We promote mutual respect, software quality, and achieving higher

levels of process maturity. We are committed to helping each other to enhance skills through an active program of networking, publications, recognition of excellence, and mutual support.
